

EXHIBIT B

Curriculum Vitae 2015 **for Elaine Duncan* MS.M.E., RAC**

CURRENT POSITION

PRESIDENT of PALADIN MEDICALSM, Inc.

Paladin MedicalSM, Inc., established in 1987, provides regulatory and clinical consulting, as well as contract technical management to emerging medical product programs. Services include engineering and process analysis, clinical/regulatory affairs consulting, and medical product new-business assessment. Please see PROFILES for specific device experience.

FORMER POSITIONS

VICE PRESIDENT of NEW VENTURES, Possis Medical, Inc., Minneapolis, MN.

Responsible for identifying new business opportunities; including establishment of alternative biomaterial partner-company to graft project and new product opportunities. Reported to CEO of Possis/PMI and President of PMI and Board of Directors.

V.P. of RESEARCH and DEVELOPMENT

V.P. of PRODUCT QUALITY ASSURANCE

Responsible for development of new vascular graft program; including successful joint venture negotiations with major medical firm. Developed polyurethane microfiber and ePTFE grafts. Designed and developed unique mock-circulatory loop. Directed regulatory approval and animal research. Established product assurance department/materials qualification and testing capabilities. Reported to CEO of Possis/PMI and President/GM of PMI.

DIRECTOR of REGULATORY AFFAIRS and QUALITY ASSURANCE,
Kolff Medical, Inc. (Symbion, Inc.), Salt Lake City, Utah

Responsible for clinical programs and regulatory submissions of JARVIK-7 artificial heart and cochlear prosthesis. Instituted GMP and GLP programs. Coordinated artificial heart training program for surgeons. Analyzed failure of the Shiley heart valves. Qualified use of Medtronic valve. Planned and budgeted contract animal implant studies, biocompatibility and physical testing for 5-year program. Assisted in taking the company through first public stock offering. Reported to President/CEO (R. Jarvik) and Vice-president/COO.

SR. RESEARCH ENGINEER, 3M Health Care Group (Orthopedic & Med/Surg), St. Paul, MN.

Responsible for new product development and new technology assessment/acquisition teams. Successfully acquired and integrated first implantable products: silicone hydrocephalic shunt, intraocular lens, mammary prosthesis, cardiac assist products, collagen products, new vascular and dental prosthetic materials. Developed patented disposable wound drainage system, non-woven vascular prosthesis, and implantable magnetic material. Assessed percutaneous access technology/market potential. Lead for acquisition of bone growth stimulator and bone growth materials. Reported to Technical Director; major acquisitions, reported directly to Division Vice-president.

EDUCATION

Master of Science, Mechanical Engineering/Minor: Biomedical
University of Minnesota, 1981
Completed course work for Ph.D.

Bachelor of Science, Mechanical Engineering/Minor: Biomedical
University of Kentucky, 1974 (Engineering Honors Fraternity)

* In 2006, Elaine legally dropped her first name Patricia to simplify travel security

MAJOR PROFESSIONAL AFFILIATIONS

Society For Biomaterials:

Editor of *Biomaterials Forum*.

Council member 1981-2000. Nominated for President

Journal of Biomedical Materials Research, editorial review board.

Association for the Advancement of Medical Instrumentation (AAMI)

American Society for Testing Materials (ASTM):- F-4 Committee (medical device standards)

Regulatory Affairs Professional Society (RAPS)

LifeSciences Alley

Expired Memberships-Held More than 10 years

Biomedical Engineering Society

Academy of Surgical Research-

International and American Society for Artificial Internal Organs

CERTIFICATION

Regulatory Affairs Certified by the Regulatory Affairs Professionals Society,

Original certification: November 1994.

Renewed certifications: 1999, 2001, 2003, 2006, 2009, 2012

ACADEMIC ADVISORY BOARD POSITIONS

College of Engineering Dean's Advisory Committee, University of Kentucky

Biomedical Engineering Department, University of Kentucky

Former-Biomedical Engineering Center, University of Minnesota

SERVICE AWARDS

Outstanding Contribution to the Healthcare Industry, Medical Alley 1992

C. William Hall Award for Service to the Society For Biomaterials, 1999

Hall of Distinction, University of Kentucky, College of Engineering, 2000.

PATENTS

US 4257422, Closed Wound Drain;

US Design: 260,177 & 260,433 Drainage Bottles

Presentations and Speeches*-

Running the FDA RTA & E-copy Gauntlet;Smoldering Submission Issues, Life Science Alley, Minneapolis, MN, October 26, 2014.

Leaping the Hurdles of Medical Textile Devices, IFAI Advanced Textile Expo, Minneapolis, MN October 14, 2014.

Regulatory 10: Quality Systems in 30 Minutes, Life Science Alley Instructor, Minneapolis, MN, March 26, 2014

Ethics in Biomedical Engineering: Case Presentation, University of Kentucky College of Engineering Invited Lecture September, 21, 2013.

Shepherding Device Applications through Regulatory Process: Standards, Society for Biomaterials, Boston, MA, April 10, 2013

Regulatory 101: Quality Systems Life Science Alley, Minneapolis, MN March 14, 2012

Delivering What Sponsors Need for GLP, Wake Forest University, Wake Forest, NC, June 26, 2012.

Strategies for a Biomaterial World. Material and Processes for Medical Devices (MPMD) Conference and Exposition. Minneapolis, MN, August 8, 2011

Managing Regulatory Uncertainty. Orthopaedic Research Society (ORS) 2011 Annual Meeting. Long Beach, CA, January 14, 2011

UK Clinician Innovation Day: regulatory issues for medical devices. Lexington, KY, August 4, 2009.

Design Control for Professors. University of Kentucky Engineering. Lexington, KY, June 2009.

Engineering Senior Leadership. University of Kentucky College of Engineering. Lexington, KY, April 2009.

Shelf-life aging. Client training. Boulder, CO, September 2008.

How Barney Clark's broken heart valve changed medical device regulations. 25th Commemorative Symposium. Salt Lake City, UT, Nov 30-Dec 1, 2007.

IRB and FDA: Roles and Impacts. Barney Clark Commemorative Symposium. University of Utah, November 30-December 1, 2007

Shelf-life aging. Client training. September 2007.

Navigating Standards & Regulations for Medical Textiles. IFAI Medical Textile Symposium. Oct 31, 2006

GLPs for Medical Device Sponsors and Combination Products. CRL, August 25, 2005.

Biomaterials Qualification and Selection for Spinal Implants. MDM Conference, November 1, 2005

Practical Tips for Regulatory Compliance: Top Guidance and Website Help. AusBiotech in Sydney Australia, April 22, 2004. Medical Alley, March 13, 2004.

Regulatory Changes Impacting Medical Device Development: The Good, the Bad and the Ugly. U of MN Annual Medical Device Design Conference, April 25, 2003.

GLP Compliance for Combination Products. November 18, 2002, Barnett International, Philadelphia, PA.

Surface Analysis: Tales of Woe & Lessons From the Past for the Future. MDM Minneapolis. October 22-24, 2002. Anaheim, CA, February 2003.

GLP Training for Sponsors: Corporate Forum (Workshop). Society for Biomaterials. April 24, 2002.

Customized GLP Training for Sponsor. Anoka Ramsey County College Education Grant. January 25, 2002

Regulatory Affairs Professional Certification Instructor for PMA, Manufacturing and Quality Training- Compare and Contrast Drugs to Devices. Medical Alley Workshop. October 10, 2001

Good Laboratory Practices Training for Sponsors of Pre-clinical Trials- Workshop with Charles River Labs. Society for Biomaterials. April 25, 2001

Hazard Analysis & Risk Assessment as an Effective Tool for Modifications to Approved and Investigational Medical Devices. Workshop, Biomedical Focus '00. July, 2000, St. Paul, MN

Benefit Analysis and the Benefit/Risk Ratio. Kona, Hawaii, World Congress of Biomaterials. May 19, 2000,

Workshop: Part 1: Hazard Analysis and Risk Assessment as a Tool for Pre-Clinical Study Planning and Part 2: Optimizing Study Design Through Risk Control: Animal Study Planning. World Congress of Biomaterials: Jointly with PRIMEDICA. May 16, 2000, Kona, Hawaii

Risk Assessment as a Tool for Planning Pre-Clinical & Clinical Studies. Medical Alley. February 9, 2000, St. Louis Park, MN

The Standardization of Biomedical Products: Finding the Good Among the Bad and the Ugly. University of Kentucky. October 7, 1999, Lexington, KY

Design Control and Review Workshop, and Hazard Analysis and Risk Assessment Workshop. Society For Biomaterials Conference. April 28, 1999, Providence, RI

Introduction to Biomaterials: Regulatory and Standards Issues. University of Washington. March 18, 1999, Seattle, WA

Design Planning & Design Review Workshop. Medical Alley. October 14, 1998, St. Louis Park, MN

Utilizing Investigator and Institution Selection and Management Strategies. Institute for International Research Conference. June 23, 1998, Minneapolis, MN

Design Control & Review: Case Study of Material Change. Society For Biomaterials. April 22, 1998, San Diego, CA

Designer Surfaces on Biomaterials; Regulatory Case Study Workshop. Society For Biomaterials. April 22, 1998, San Diego, CA

Risk Management With and Within Clinical Trials. Medical Alley Seminar, May 13, 1997.

Design of Clinical Trials Workshop; Planning and Managing Clinical Studies-Addressing your Questions. ASAO 43rd Annual Conference. April 30, 1997, Atlanta, GA

Reaction to Activities of the FDA-ODE from the Perspective of our Town. Medical Alley. December 1996, Minneapolis, MN

Surfaces in Biomaterials 1996 Symposium. Surfaces in Biomaterials Foundation. Sept, 1996, Phoenix, AZ

Deciding When to Submit a 510(k) for a Change to an Existing Device. Medical Alley Regulatory Committee. February 14, 1996, St. Louis Park, MN

Testing Medical Devices on Human Subjects: What Your Company Needs to Know to Work with the Physician and/or Inventor. Medical OEM Exposition. November 1995, Minneapolis, MN

Roadblocks in the Submissions Process. HIMA Fifth Annual Device Submissions Workshop Panelist. July 1995, Washington, D.C.

Regs, Risks, and Responsibilities. Presented to the University of Minnesota IRB Human Subjects Committee. June 1, 1995, Minneapolis, MN

Selection of Biomaterials and Presentation of Data to FDA. Discussion Leader. Sponsored by Medical Alley Regulatory Committee, February 1995, St. Louis Park, MN

Medical Device Development: Regulatory Risk Management. Faculty; Mechanical Engineering Seminar and UNITE. Sponsored by University of Minnesota, January 1995, Minneapolis, MN

Requirements for Monitoring Clinical Trials. Faculty; Short Course: Approaches to the Clinical Evaluation of Medical Devices. Sponsored by the Society for Biomaterials, Dec. 1994, Rockville, MD

Device Labeling Changes, presented, Medical Alley, Minneapolis, MN, August 1993.

Controversial Issues in Biomaterials for Medical Devices, presentation, Biomedical Focus VII / ASQC, Minneapolis, MN, July 1993.

Medical Entrepreneurial: Practical Solutions for Starting Your Business, presentation, Midwest Electronics Expo Tenth Anniversary, Minneapolis, MN, May 1993

Implant Retrieval Symposium, presentation, co-chairman of symposium, St. Charles, IL, September 1992.

Modifying Existing Biomaterials, presentation, chairman MD&M East 10th Anniversary, New York, NY, June 1992.

Strategic Planning for Clinical Trials, presentation, Biomedical Focus V / ASQC, Bloomington, MN, July 1991.

Technical, Industrial and Regulatory Aspects of Biocompatibility Testing and Materials Qualification, presentation, co-chairman Biocompatibility Workshop, May 1991.

Medical Devices: New Regulatory Environment for Manufacturers and Healthcare Professionals "Perspective on the Impact of the Revised Legislation", presentation, December 1990.

Performance Testing of Biomaterials, presentation, Biomedical Focus IV / ASQC Biomedical Div., Minneapolis, MN, July 1990.

Biomaterials: Selection and Analysis, Workshop Chair, Medical Design and Manufacturing Conference, New York, June 1990.

Polymer Matrix Rare-earth Magnets for Medical Applications, Oral Presentation and Abstract, Advances in Biomedical Polymers, Royal Australian Chemical Institute Meeting, Perth, Australia, February, 1989.

Device Reliability and Failure Analysis: Appropriate Measures for Your Product, panel chairman Medical Design and Manufacturing West Conference, Anaheim, CA, January, 1989, and New York, June, 1989.

Circulatory Simulator for Analysis of Vascular Augmentation. Abstract, ASAIO. 1987.

Metallurgical and Thermal-Wave Failure Analysis of Two Bjork-Shiley Spherical Disk Valves Used in JARVIK-7 Total Artificial Hearts. World Biomaterials Congress April, 1984. Oral Presentation.

Choice of the Medtronic-Hall Valve in the JARVIK-7 Total Artificial Heart. Abstract. ASAIO, 1984.

**May not include presentations at client facilities*

Continuous Training and Service Improvements: Selected Examples

Biocompatibility and Performance of Medical Devices, NAMSA, Minneapolis MN May 14, 15, 2013

FDA's Financial Disclosure Guidance for Clinical Investigators, FOI Teleconferences, February 6, 2012

LifeScience Alley Conference and Expo 2010, LifeScience Alley, Minneapolis, MN, December 8, 2010

Symposium on Static and Dynamic Spinal Implants, ASTM, San Antonio, TX, November 16-17, 2010

NASS 25th Annual Meeting, North American Spine Society, Orlando, FL, October 6-9, 2010

FDA Webinar, FDA, August 31, 2010

Congressional Field Hearing, Congressman Erik Paulsen, Plymouth, MN, August 24, 2010

SAS 10th Annual Global Symposium on Motion Preservation Technology, Spine Arthroplasty Society, New Orleans, LA, April 27-30, 2010

CDRH Town Hall Meeting, US FDA Sponsored, Bloomington, MN May 18, 2010.

MedTec Ireland, Canon Communications, Galway, Ireland, September 23-24, 2009

Materials and Processes for Medical Devices, ASM Internatoinal, Minneapolis, MN, August 2009

Under Attack or On the Attack?- The 510(k) Program, LifeScience Alley, St. Louis Park, MN, April 29, 2009

SAS 8, The Spine Arthroplasty Society, Miami, FL, May 6-9, 2008

NASS 22nd Annual Meeting, North American Spine Society, Austin, TX, October 23-27, 2007

MD&M Minneapolis Conference, Medical Design & Manufacturing, Minneapolis, MN, October 16-18, 2007

RAPS 2007 Annual Conference and Exhibition, RAPS, Boston, MA September 23-26, 2007

Developments in Medical Device Testing, NAMSA, Minneapolis, MN, May 17-18, 2007

Investigational Testing of Medical Devices in Canada, Advamed, September 7, 2006

AAOS, Chicago, IL March 21-25-2007

7th World Congress of Biomaterials, Sydney, Australia, May 17-21, 2004

Litigation Exposures in Clinical Trials, Medical Alley, January 21, 2004

HIPPA Update, Medical Alley, September 26, 2002, Minneapolis, MN

Data Management Process for Clinical Trials, Medical Alley, August 21, 2002, Minneapolis, MN

Good Laboratory Practices- Professional Training Course, IQPC, July 24-25, 2002, Philadelphia, PA

21 CFR Part 11- Electronic Records; Electronic Signatures, Medical Alley, April 5, 2002, Mpls. MN

An FDA ODE Update, Medical Alley, December 2001, Mpls, MN

Roadmap to Successful Development of Regulatory Approval of Medical Devices, Surfaces in Biomaterials Foundation – August 2001. Scottsdale, AZ

Profiles of Success

Elaine Duncan, MSMS, RAC

Artificial Hearts, Heart Assist and Heart Valves

- Heart valves
 - Durability testing
 - Failure analysis
 - Flow simulation
- Pericardial heart valve animal testing
- Artificial heart clinical research and IDE submissions
 - Jarvik-7
 - Dayton Axial-flow pump
 - 3M/Pierce-Donachy
 - Milwaukee Heart

Biomaterials: Polymers, Surface Modifications and Combination Products

- Qualification and validation strategies for new and replacement biomaterials
 - Silicones
 - Polyurethanes
 - Surface coatings
 - Combination drug/device
- ISO-10993 biocompatibility testing optimization for all types of devices
- Surgical mesh materials, physical, animal, clinical testing and premarket applications

Bone Graft Substitutes, Restorative Materials and Devices, Implants

- Orthopedic and dental biomaterial applications, clinical trial, IDE and premarket submissions
 - Coatings
 - Bone graft substitutes
 - Hydroxyapatite
 - Calcium sulfate and variations
 - Artificial ligaments
 - Artificial joints
 - Wedge osteotomy PEEK implant and instrumentation
 - Bone growth stimulation
 - Foot reconstruction systems
 - Hip implants and joint resurfacing
 - Intramedullary rod alternatives
- Spinal implant technologies in clinical trial, IDE applications and premarket submissions
 - Rods and screw
 - Total artificial disc
 - Spinal nucleus devices

Dental

- Bone and Defect Filler
- Dental Implants

Electrophysiology – Cardiovascular and Neurological

- Implantable defibrillators
- Pacemakers
- Leads and electrodes
- Wearable external pacemakers
- Electrophysiology stimulators
- Ablation catheters
- Guidewires and catheter navigation systems
- Pacing systems for congestive heart disease
- Bone and muscle electrical stimulation

Minimally Invasive Technology

- Laparoscopic, arthroscopic, spinal and other minimally invasive technologies 510(k) notifications
- Robotic surgical system
- Qualification of unique materials and design features
- Protocol development and testing requirements

Profiles of Success

Elaine Duncan, MSMS, RAC

- Animal and clinical evaluations
- Reusability protocols for cleaning and sterilization validation

Ophthalmology and Otolaryngology

- Selection of biomaterials, device qualification, and clinical trials
- Comparative testing of lenses for optical quality related to clinical outcomes.
- Cochlear implant devices investigational applications

Powered Mobility, Prosthetics and Physical Medicine

- Powered stand-up wheelchair
- Physical medicine devices for the home
- Materials qualification for prosthetic interface

Reusability of Devices and Instrumentation

- Validated cleaning and/or sterilization studies
- Durability and reuse testing protocol development

Safety Syringe

- Clinical usability testing
- Premarket notification [510(k)]

Software, Electronics, Internet Medicine

- Implantable electronic device premarket notification [510(k)]
- Data storage systems
- Imaging diagnostic systems, such as gamma camera
- Software-based medical systems
- Internet-based home medical services

Sterility and Shelf-life Testing

- Shelf-life testing and expiration-date labeling protocols
- Qualifying materials and devices for use in alternative sterilization methods

Oral Appliances

- Qualifying biomaterials and device designs
- Premarket notification [510(k)] for Australian and US clients

Urological and Dialysis Catheters

- Clinical trial management, auditing and reporting
- Design qualification and review for numerous
- IDE applications and FDA interactions
- Premarket notification [510(k)]
- Biomaterials qualification
- Percutaneous implant port for bladder
- Anti-infective coatings and surface modifications
- Testing to voluntary standards

Usability Studies

- Protocol development and field testing for user manual validations
- Usability studies for “over-the-counter” products
- Usability studies for safety syringes

Vascular Grafts and Stents

- Peripheral vascular grafts
- Coronary artery bypass grafts
- Vascular stents technology
- Cell-seeding technology
- Tissue-derived vascular prostheses

In-vitro fertilization products

In-vitro diagnostics
